

The Main Full-time Training Centre Options after Year 11 in Suffolk 2022-3

Independent Training Providers Suffolk

What is a Study Programme?

A study programme is a full-time course with similarities to college but in a smaller, friendly environment with a focus on individual needs. A study programme can involve a work place experience, and supports young people in developing maths, English and workplace skills.

What is a Traineeship?

A traineeship is a shorter term, full-time programme which helps prepare young people for an apprenticeship or work. Young people develop their self-confidence and employability skills, as well as their maths and English. Traineeships include a work placement.
