

# We asked young people what being an adult means to them...

When I am going to be an adult I'm going to leave school and go to college or work at the burger place to get lots of money

Finding a partner and starting a family

Planning what I get at the shop and how much money to spend

Saying hello to paying bills for a living!

Keeping the house tidy and safe

Becoming boring!

Having a job

Making appointments

Not being able to get away with things you used to as a child!

You might want to stay living with your mum

Lots of responsibilities

**Everyone's different! What does it mean to you?**
